

# WELL-BEING AND SOCIAL DEVELOPMENT DRIVEN BY CULTURALLY SENSITIVE POLICIES:

FROM PSYCHOLOGICAL RESEARCH  
TO ACTION

**APRIL 24 2025**

HYBRID | ENGLISH

## Release of the 2nd edition of the Social Development Report & Discussion Panel

What drives societal progress? How can psychology shape socially responsive policies adapted to communities' needs, values, and challenges, while ensuring cultural sensitivity? How can policies impact well-being?

This event will bring together international researchers for a debate, exploring the vital role of social factors in development and policy-making. It will feature the release of the latest Social Development Report, presenting findings from recent research and key recommendations derived from these studies.

Join us to explore data-driven insights transforming psychological research into actionable policies that are adaptive and sensitive to diverse social dynamics.
